

# Drascombe Gig

Safe, rugged, high quality open boats at  
affordable prices.

**T**he Drascombe Gig has been designed specially for training purposes. She is able to accommodate ten in comfort – sailing, rowing or under power with a 10-20hp outboard engine.

When sailing, the lug yawl rig is designed to give the crew plenty to do. Hence the reef points in the jib and three sets in the large mainsail.

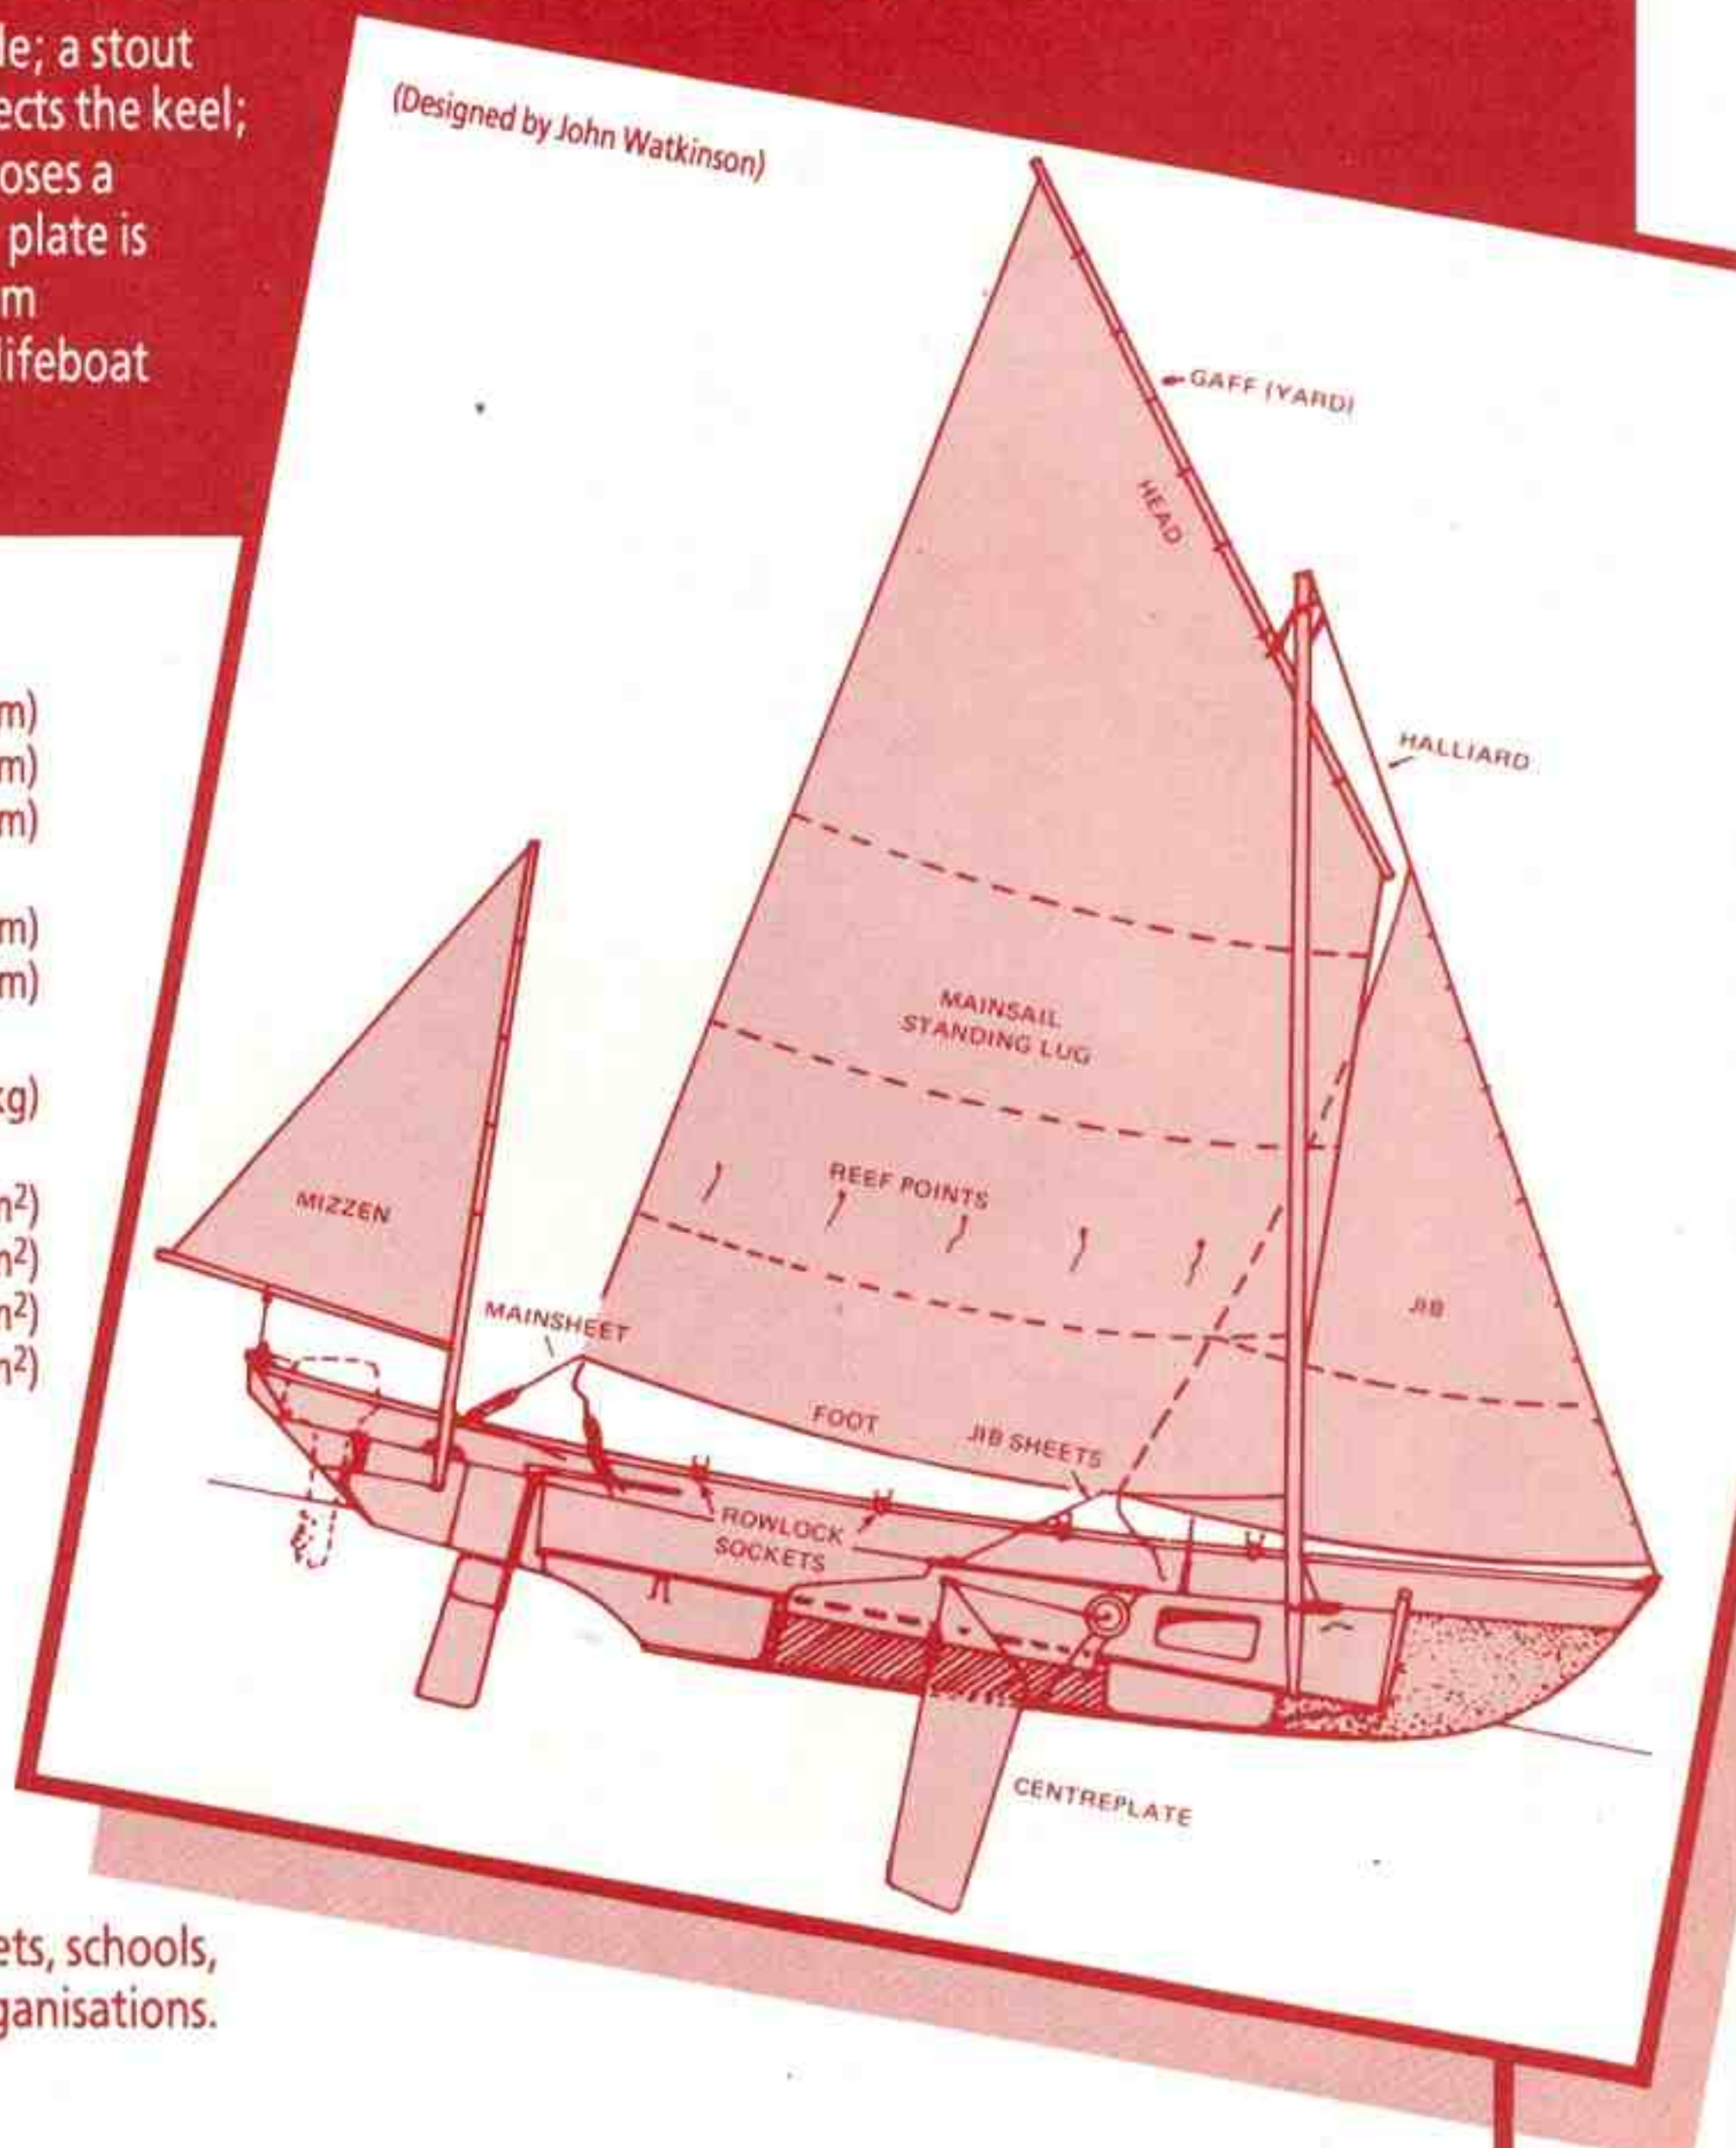

The Gig, like all Drascombe boats, is built with safety in mind. Most of the enclosed space beneath the decks and side benches is filled with expanded polystyrene foam to give ample permanent buoyancy – enough to float boat and crew – if necessary. 300lbs (136kg) approx. of fixed ballast is installed amidships to ensure stability with a light crew.

Other safety features include; a stout hardwood shoe which protects the keel; trunking, which totally encloses a galvanised centreplate (the plate is operated by a powerful drum winch); bilge rubbers with lifeboat style hand grips.

### SPECIFICATION

LOA	25ft 0in	(7.62m)
LWL	20ft 6in	(6.24m)
Beam	7ft 0in	(2.13m)
Draft		
c/plate up	1ft 6in	(0.46m)
c/plate down	5ft 1in	(1.56m)
Weight including		
sailing gear	1760 lbs	(800kg)
Sail Area		
Jib	53sq ft	(4.93m <sup>2</sup> )
Mainsail	180sq ft	(16.75m <sup>2</sup> )
Mizzen	22sq ft	(2.04m <sup>2</sup> )
Total	255sq ft	(23.72m <sup>2</sup> )

The Drascombe Gig has already made her mark as an excellent boat for taking large groups of people sailing. She is used by naval training establishments, the Sea Cadets, schools, colleges and many other organisations.
